

Featuring Imazaquin for Weed Control in Southern Landscapes and Turfgrass

Armed with imazaquin, SCEPTER[®] T&O 70 WDG HERBICIDE provides flexible, broad-spectrum weed control that landscape and turfgrass managers can count on. SCEPTER T&O is a selective post-emergence herbicide that provides superior control of many hard-to-control weeds in tolerant southern landscape ornamentals and warm-season turfgrasses.

FEATURING

- ✓ WSSA Group 2 herbicide
- ✓ Mode of action: Acetolactate synthase inhibitor
