Carve™ | Active Ingredient: Prothioconazole 41.0%

A One-Product Solution to Control Top Five Turf Diseases

Carve™ is a powerful DMI fungicide that provides next-level control of dollar spot, brown patch, anthracnose, gray leaf spot, snow mold and 13 other harmful cool- and warm-season diseases without thinning turf.

In addition to offering a one-product solution for the toughest diseases, Carve also features an excellent turf safety profile, an ultra-low use rate, convenient packaging, and affordability, making it suitable for use across fairways, tees, and greens.

FEATURING

- ✔ Ultra-low, single use rate - 8.5 fl oz/acre
- ✔ In total, controls 13 different cool- and warm-season diseases
- ✔ Excellent cool- and warm-season turf safety under any environmental condition with or without PGRs

Key Features and Benefits

- Protects against five of the most problematic diseases on golf course turf: dollar spot, brown patch, anthracnose, gray leaf spot, snow mold / Microdochium patch
- Excellent control against many soilborne diseases such as fairy ring, mini-ring, and take-all root rot
- Convenient packaging for fairways means less time spent measuring, loading and rinsing
  - 1 Bottle = 51 fl oz
  - Treats 6 acres = 1 spray tank (300 gallons)
- Fits well in all golf turf types and in the transition zone where turf mixes are common
- Applied as a foliar spray and fits easily into rotational or tank-mix programs with other registered products
