

Active Ingredient: Pentachloronitrobenzene (PCNB) 40.0%

PCNB: The Most Effective Snow Mold Fungicide Available

Turficide® 400 is powered by PCNB, a multi-site contact fungicide with a unique mode of action that has been used for snow mold control for over 50 years. PCNB is widely recognized as the most effective single active ingredient for control of all three major snow mold pathogens. Turficide 400, as part of a complete snow mold fungicide program, can maximize protection from pink and gray snow molds.

FEATURING

- ✓ FRAC Group 14 fungicide
- ✓ Better multi-site contact fungicide than chlorothalonil against pink, gray, and speckled snow molds
- ✓ Unsurpassed tank mix partner for snow mold control
